

APPEAL TO HARDING TO HELP END BOOZE TRAFFIC IN CHICAGO

Policemen Under Federal Surveillance—Wholesale Dismissals Are in Prospect.

CHICAGO, Sept. 26.—Arthur Burrage Farwell, head of the Chicago Law and Order League, following the statement Saturday by Police Chief Fitzmorris that half of Chicago's police force of 5,000 men are bootleggers, to-day sent this wire to President Harding:

"Situation caused by nullification of the Eighteenth Amendment in Chicago is intolerable. Prohibition laws are being openly violated. Crime is on the increase. Writing you in detail in regard to this critical situation. Moral forces of the city will leave to your excellent judgment what should be done."

Farwell has been the leader of Chicago's Reform element since 1871. In his letter he asks the President to use his influence to induce Congress to send an investigating committee to Chicago with power to subpoena witnesses and fix the blame for the nullification.

Dismissal of Chicago policemen in wholesale lots is expected. Eight hundred men have been transferred by Fitzmorris, and Charles F. Clyne, United States District Attorney, will to-day furnish Fitzmorris with a list of all officers who have fallen under Federal investigation in connection with whiskey running and bootlegging. Fitzmorris has announced his intention of dismissing every man implicated, and claims he has a list of men that can replace hundreds of policemen if it becomes necessary to dismiss that many.

In a statement to-day Chief Fitzmorris said: "Prohibition enforcement in Chicago is a joke. That statement not only goes for the police force but for the citizenry. I'm going to divorce the police force from the illicit liquor traffic if I have to discharge half of the force."

"Never in my experience have conditions been so rotten. The same thing obtains in all the large cities of the country, and the United States must run the big cities or the big cities will run the United States."

IZZ MAKES RAIDS AS "JOBLESS MAN"

Disguised as jobless men who still had the price of that which looks like whiskey, smells like kerosene and tastes like brimstone, Izy Einstein, Moe Smith and Peter Reiger, world's champion catch-as-catch-can Prohibition enforcement agents, scored a complete rout this morning in many saloons. The score at the end of the morning's play stood: Arrests made, 9; escapes, 6.

So clever were the disguises that

Louis Freischert of No. 745 Tremont Avenue, the Bronx, according to Einstein, didn't hesitate a moment in throwing open the doors of his cellar. Einstein and his companions, after gazing upon what they assert is a still, a beer making machine and 100 gallons of moonshine, placed their host under arrest.

Their next stop was at No. 2135 Madison Avenue, where they declare Louis Provenzano, the bartender, with the permission of Anton Reda, the owner, sold them potent liquid. They left a summons for both.

James Kelly, owner, and Owen Mc-

Elroy, bartender, in the saloon at No. 369 Ninth Avenue, were the next to fall into the clutches of the trio. They were quickly followed by Theodore Hussy of No. 370 Ninth Avenue and Patrick Hearty, owner, and Roscoe

Gallaso, bartender, at No. 230 Ninth Avenue, and Dennis J. Murphy, owner of the saloon at No. 329 West 17th Street. All will be arraigned later in the day before the United States Commissioner.

CANDY PENNY A POUND PROFIT

BEN FRANKLIN once said "Men and melons are hard to know." In the country, the cautious buyer "plugs" a melon—that is, he cuts out a wedge shape portion which he tastes. If it comes up to his expectations, he buys the melon. If not he passes it up. He takes no chances on Quality. As this practice would not be practical in the candy market to make sure of Quality—we provide a still better safeguard. Before the materials are purchased which enter into the making of LOFT Candy, the samples are carefully tested by our Chemist in our own laboratories. His findings earn the purchase or rejection of the "makings" of Loft Candy. You take no chances on LOFT QUALITY. It is INSURED.

Special—Tuesday, Sept. 27th

CHOCOLATE NUT
CARAMELS:

HEARN

FOURTEENTH STREET Established 1827 WEST OF FIFTH AVE.

—and now
a store at
46th
Street

New York
is really learning to walk

It's a healthy indication—this new Ground Gripper Store, just opened on 46th Street. It proves more than the mere fact that the Ground Gripper shoe is achieving a tremendous popularity wherever it is sold.

It proves that right here in New York people are paying more attention to their feet, to their shoes and to walking than ever before. And that's fine.

A new Ground Gripper store was to be expected, of course. And there'll be more of them. Why? Because the customer coming into any Ground Gripper Store receives, first of all, prompt, courteous attention, a careful, intelligent fitting and, most important, he is offered a shoe that is scientifically correct, made to fit the human foot and absolutely the most comfortable, satisfactory shoe ever put on his foot.

We're expecting to see many new faces at our 46th Street Store. When will you be in?

There's a Ground Gripper for every member of the family
